

OCCUPATIONAL HEALTH AND SAFETY **POLICY**

WHAT WE WANT

- Make sure all of our products, services and internal activities are performed in a way to avoid any damage to health or property by a fault on our part.
- Continuously improve conditions for ensuring the safety of the company employees and customers.

HOW TO ACHIEVE IT

- By properly respecting the defined operating procedures.
- By communicating the potential risks to our employees in the individual departments on a regular basis.
- By periodical occupational health and safety training.
- By arranging for all required inspections of machinery, equipment, tools and fixtures.
- By using the required personal protective equipment.

WE HAVE COMMITTED TO

- Properly respect all occupational health and safety regulations when performing our activities.
- Continuously improve the implemented occupational health and safety system.
