

## **QUALITY POLICY**

### **WHAT WE WANT**

- Offer products and services in top quality and within agreed terms to all of our customers.
- Continuously improve the relationships with our partners and customers and enhance their confidence in our capability.

### **HOW TO ACHIEVE IT**

- By improving the management system and thoroughly inspecting all activities and processes in the company.
- By implementing new technologies and operating procedures.
- Through constant care of the company technical equipment and efficiently using all machinery and equipment.
- Through close cooperation with key suppliers and assuring the required quality of supplies.
- By systematically improving the qualification of all company employees.
- By constantly striving to improve production efficiency and the quality of all company activities.

### **WE HAVE COMMITTED TO**

- Respect the above-mentioned principles of the quality policy in order to meet our customers' requirements.
- Thoroughly respect any and all quality-related statutory and legal regulations.
